

# Crossword

By Myles Mellor

## FACT

On October 18, 1931, Thomas Edison, known for improving the incandescent light bulb, died in New Jersey at age 84. Shortly before passing, he awoke from a coma and whispered to his wife, Mina, "It is very beautiful over there..."

### ACROSS

- 1 Connecting up, in a way
- 5 Inspector's reference point
- 8 Vertical displacement of an overhead conductor between support points
- 10 Not operational
- 12 Type of current
- 14 Cut down, as in a budget
- 15 Slight
- 18 Relayed
- 19 Unit of inductance
- 21 Technology that uses polarized light
- 23 Change of poles from negative to positive and back
- 25 Paranormal ability
- 27 Cable pulling facilitator
- 29 \_\_\_ Phase: 3 wire single phase distribution system
- 30 Giant conglomerate that started in electricity
- 32 Battery units
- 35 Universal Bushing Well
- 37 Access number
- 38 Type of battery

- 39 Power \_\_\_
- 41 Aluminum symbol
- 42 All aluminum conductor
- 44 Brink
- 45 It's needed for switches and outlets
- 48 .000001 joule
- 49 Instant
- 50 Page

### DOWN

- 1 Three phase, four-wire configuration
- 2 A wire color
- 3 \_\_\_ load loss
- 4 Line hose
- 6 Electrical law maker
- 7 Watts
- 8 Turn on/turn off
- 9 Obtain
- 11 Thermoset plastic compound used for insulation of wire and cable containing an anti-treeing compound
- 13 Stop working
- 16 "Take your pick"

- 17 Observers
- 19 Electrical system designed to operate between 46v and 230v
- 20 Born, in bios
- 22 \_\_\_ tolerance
- 24 Any information acquired or produced by the digital control system
- 26 Lay
- 28 Symbol of industriousness
- 29 Mighty
- 31 Can be used
- 33 Total impedance of all the items in the output circuit
- 34 Type of Static Var Compensator
- 35 Fault passage indicator, for short
- 36 Switch position
- 40 Kind of light
- 43 Computer capacity
- 46 Type of insulation of wire and cable
- 47 For example, briefly
